

John Maitland Solo Exhibition BATHERS

Bathers by John Maitland

Playful and innocent beach settings are the theme for this solo exhibition by John Maitland. John has reflected on holiday-goers doing what they do best on our beautiful coastline; basking in the sun and swimming in it's sublime waters.

Art Nuvo encouraged John to paint our local beaches and lifestyle that the Sunshine Coast enjoys. John has said that 'he became excited. It was the Coast which has given me the colours, the forms and the ideas and in many cases the monumentality, and the inspiration to abandon the security of my work and become a professional artist'

Throughout this catalogue you will experience many familiar scenes of a mother wrapping her child in his towel, girls playing volleyball in the surf, fishing off the rock pools. 'I have introduced the use of metallic colours into quite a few works, adding an opalescence and jewel-like sparkle to capture the colours of the waters edge. The works are given a slightly unfinished look which imparts a vibrancy and excitement to the finished piece. I believe the beauty is in the imperfections and I strive to attain that quality in all my works.'
