The Beautiful Era in Art

La Belle Epoque

The Beautiful Era in Art

Was a period in French and Belgian history that is conventionally dated as starting in 1871 and ending when World War I began in 1914. The peace and prosperity in Paris allowed the arts to flourish, and many masterpieces of literature, music, theatre, and visual art gained recognition.

In this exhibition the artists have taken inspiration from this era of artists, you will see the shimmer of the Klimpt Gold, the soft touch of a Monet and the lush ladies of this era.

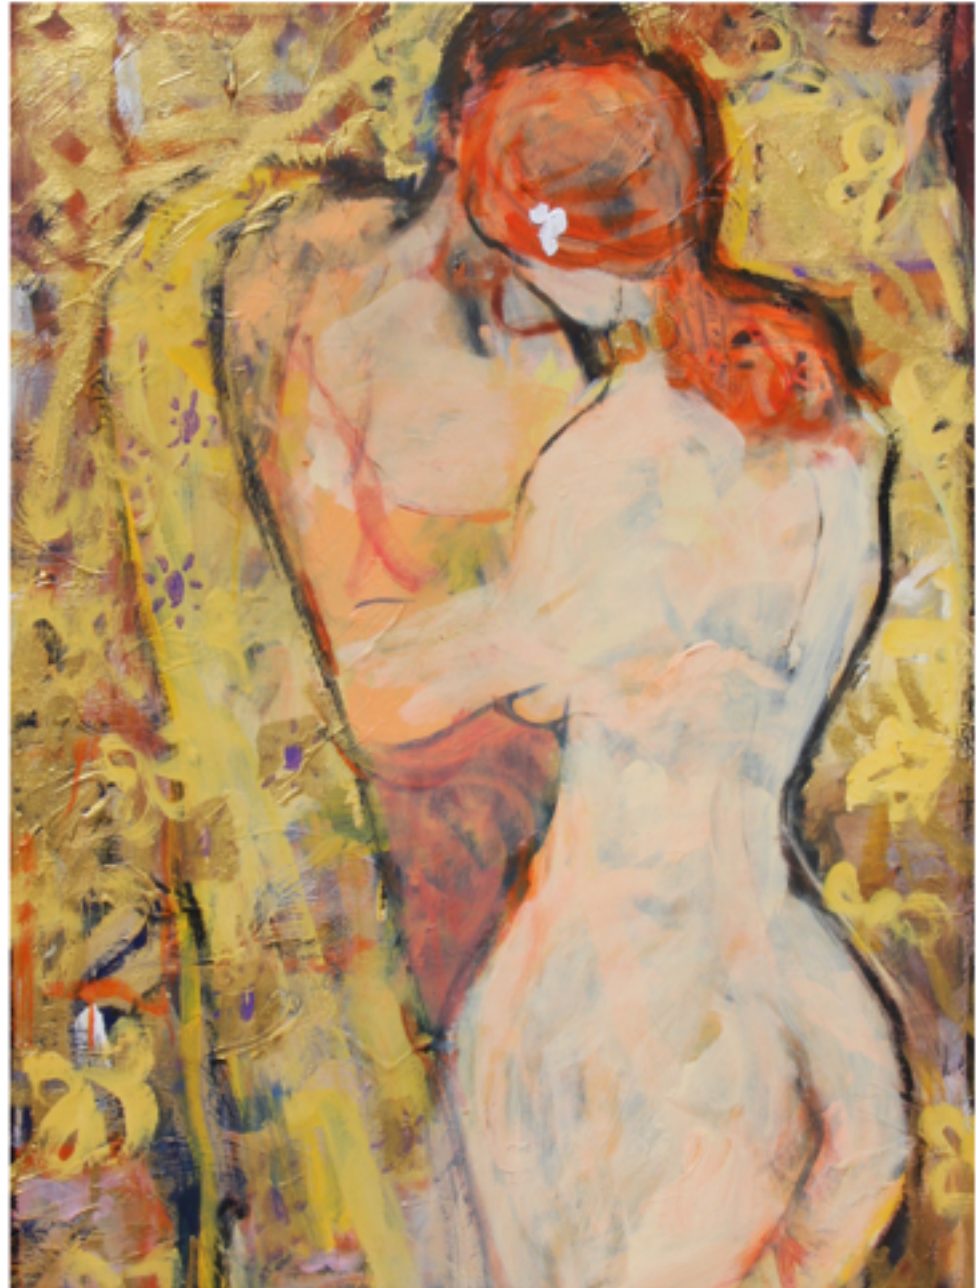

We trust you will enjoy this Beautiful exhibition of art. www.artnuvobuderim.com.au
