

## John Maitland Solo Exhibition 2014

An Exhibition of a Fathers Love - in support of his Daughter Roisin Maitland who lost her husband to a One Punch Incident

# Maitland 2014 Solo Exhibition

---

A fathers love is endless. When John Maitland paints for an exhibition he draws his inspiration from his family that surrounds him. From his grandchildren at play, to a mothers love, a child with balloons, ballet practice, an overall feeling of joy and people in their environments.

This exhibition is one that is especially connected for John as he assists his Daughter Roisin with raising her 4 children on her own after her husband Scott was killed in a one punch incident in Coffs Harbour last year. Sarah 6 suffers from Cystic Fibrosis, has limited sight and suffers from major migraines. Art Nuvo has represented the artist John Maitland for the past 5 years and are donating a percentage of sales to Roisin and the Scott Snodgrass Foundation to assist Roisin in medical care and raising her 4 children. As the case has not yet been finalised Roisin and her children are not seen as victims of crime and hence are not able to access any of the state counselling services or funds. It's a long road to recovery for this family but we are wanting to throw our weight behind giving them a little ray of sunshine from Art Nuvo and you our customers.

We ask for your support of this exhibition. To encourage as many sales as we can John has also reduced the prices of his artworks for this one special show. Artworks are going to be at least 20% below current market value so if you love John's works please don't miss an opportunity to help Art Nuvo make a difference in these beautiful children's lives.

Should you not find any artwork for yourself any donations are appreciated to the  
Scott Snodgrass Foundation
